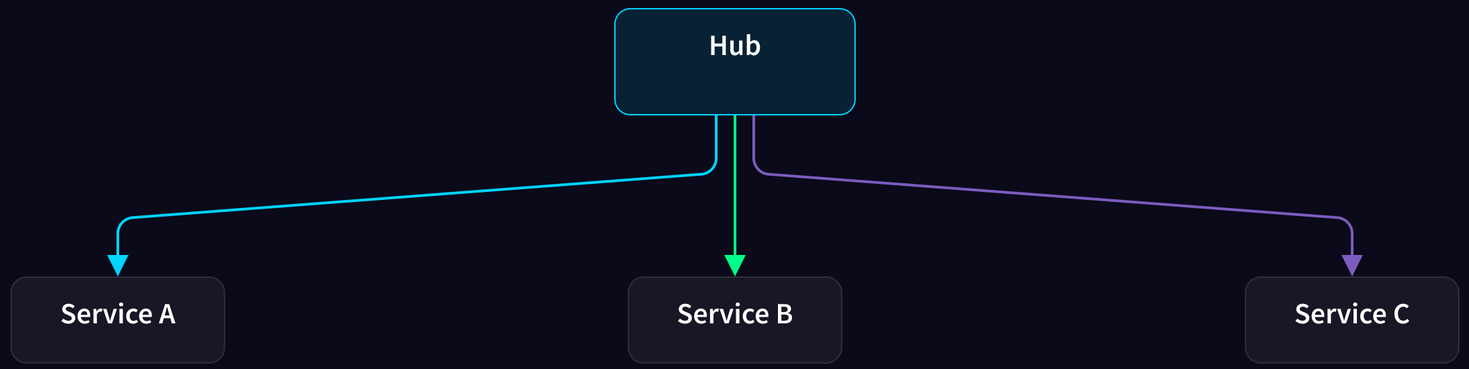
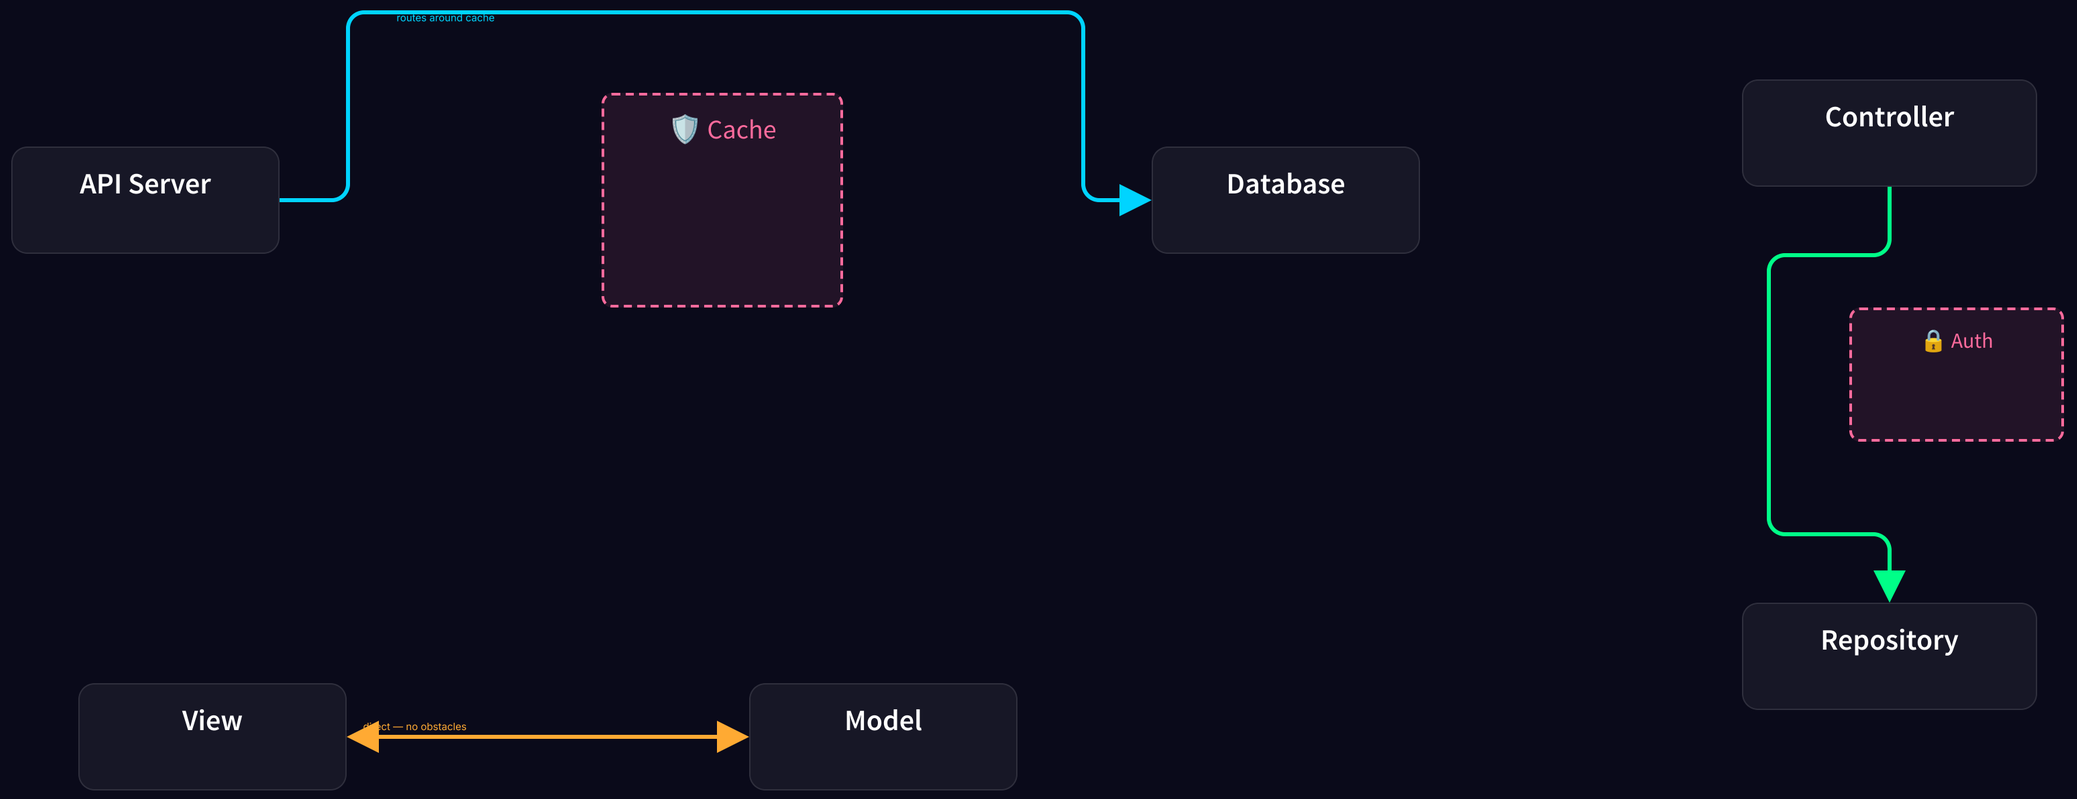
Connector Improvements

Obstacle Avoidance · Port Spreading · Rounded Elbows · Smart Labels



Obstacle Avoidance

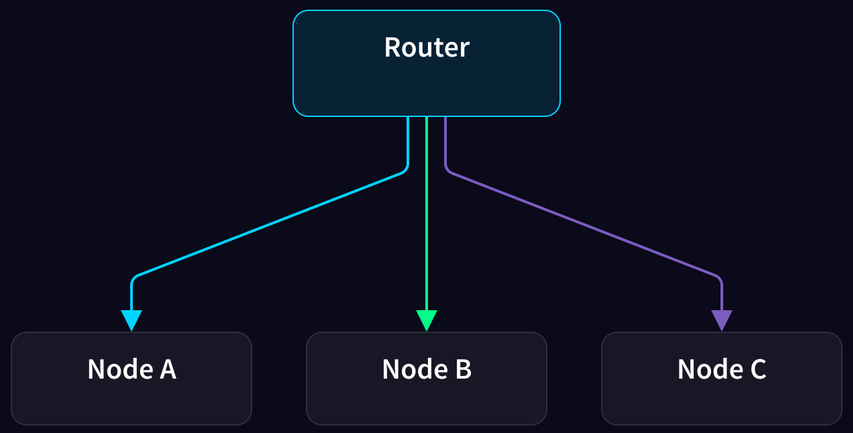
Connectors automatically route around other elements on the slide



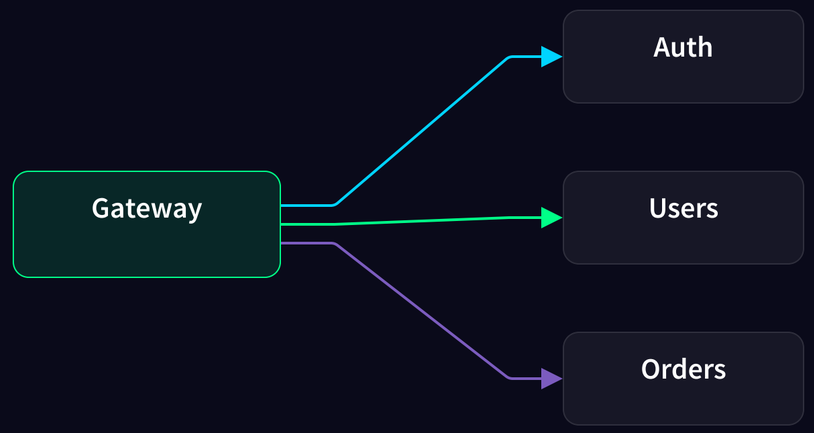
Port Spreading

Multiple connectors from the same edge spread out to avoid overlap

Fan-Out (bottom edge)

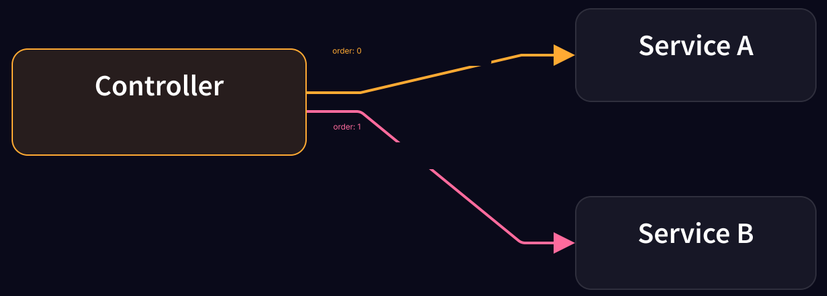


Fan-Out (right edge)



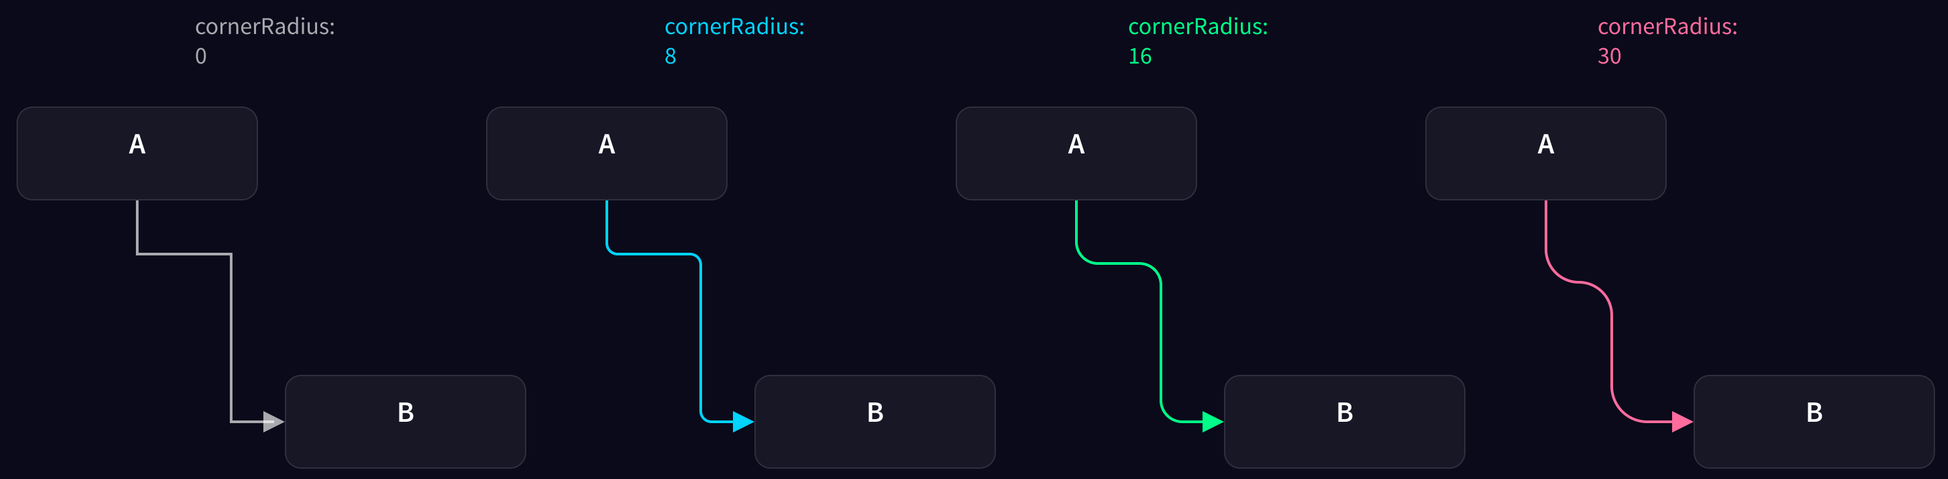
Explicit Port Ordering

Use fromPortOrder / toPortOrder to control which port goes where

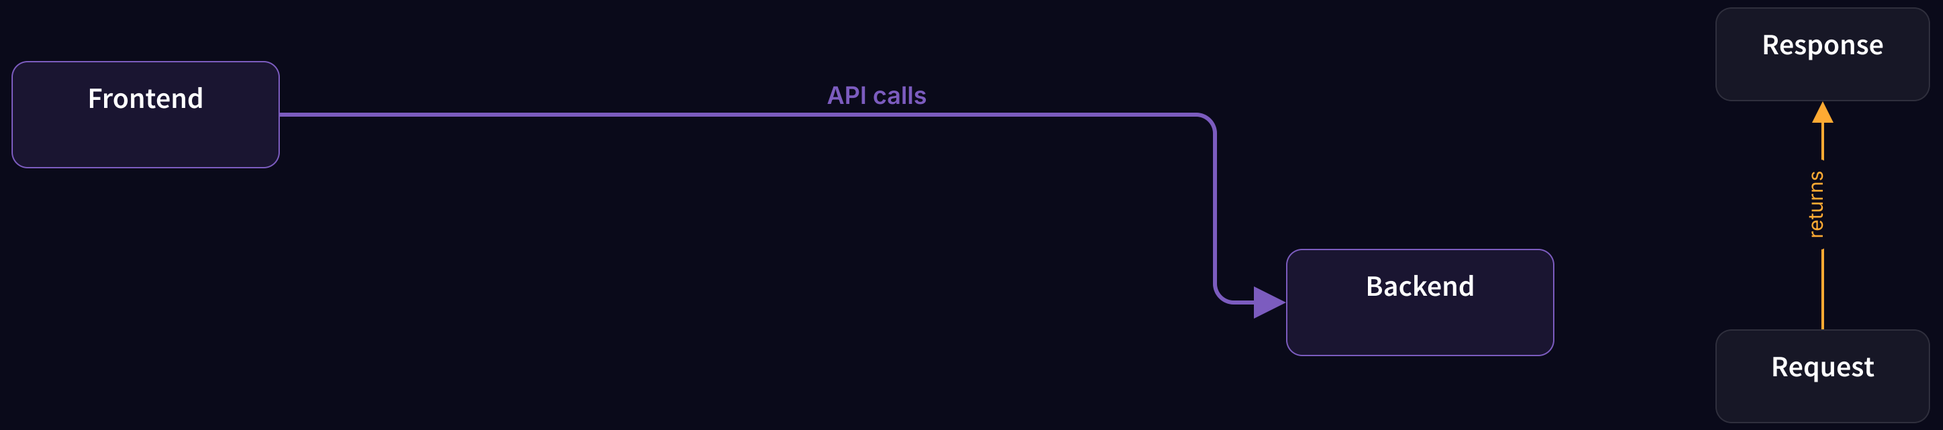


Rounded Elbow Corners

Corner radius adds smooth curves at elbow bends via SVG arcs



Multi-bend with Rounded Corners

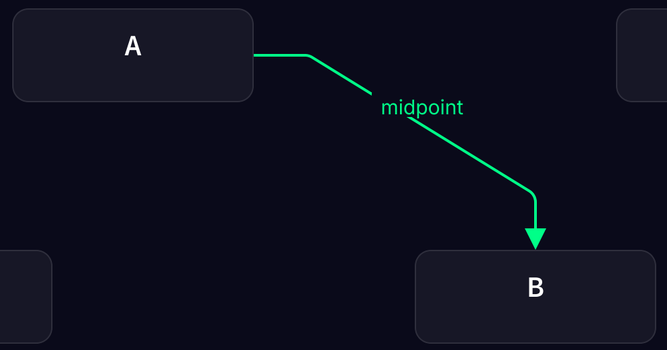


Smart Label Placement

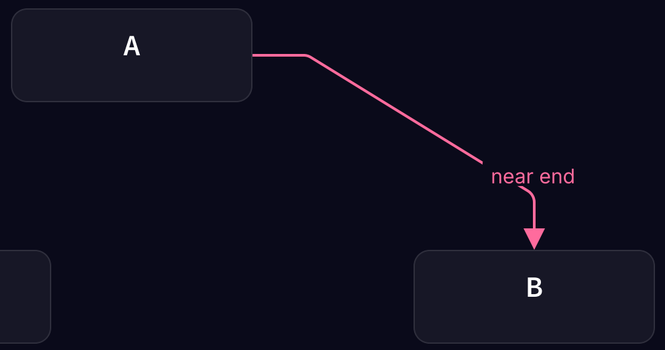
Labels follow the path and can be positioned at any point along it

labelPosition: 0.0
(start)

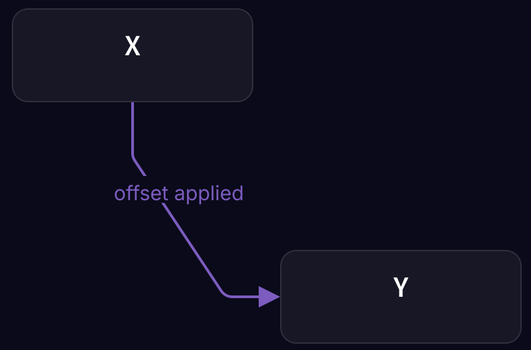
labelPosition: 0.5
(mid)



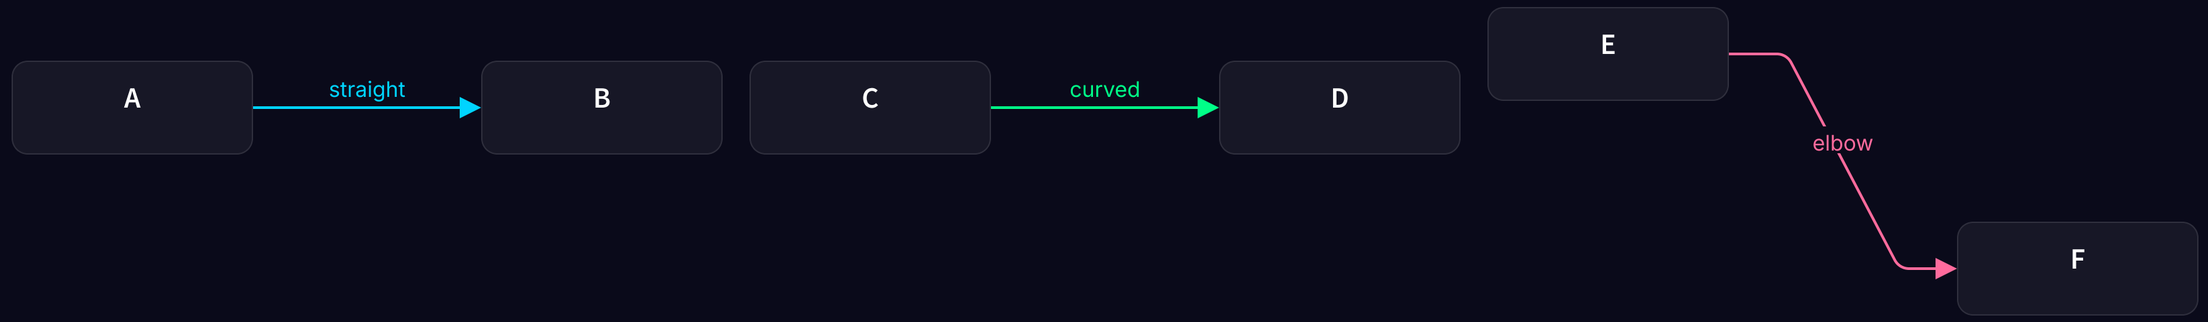
labelPosition: 1.0
(end)



Label Offset

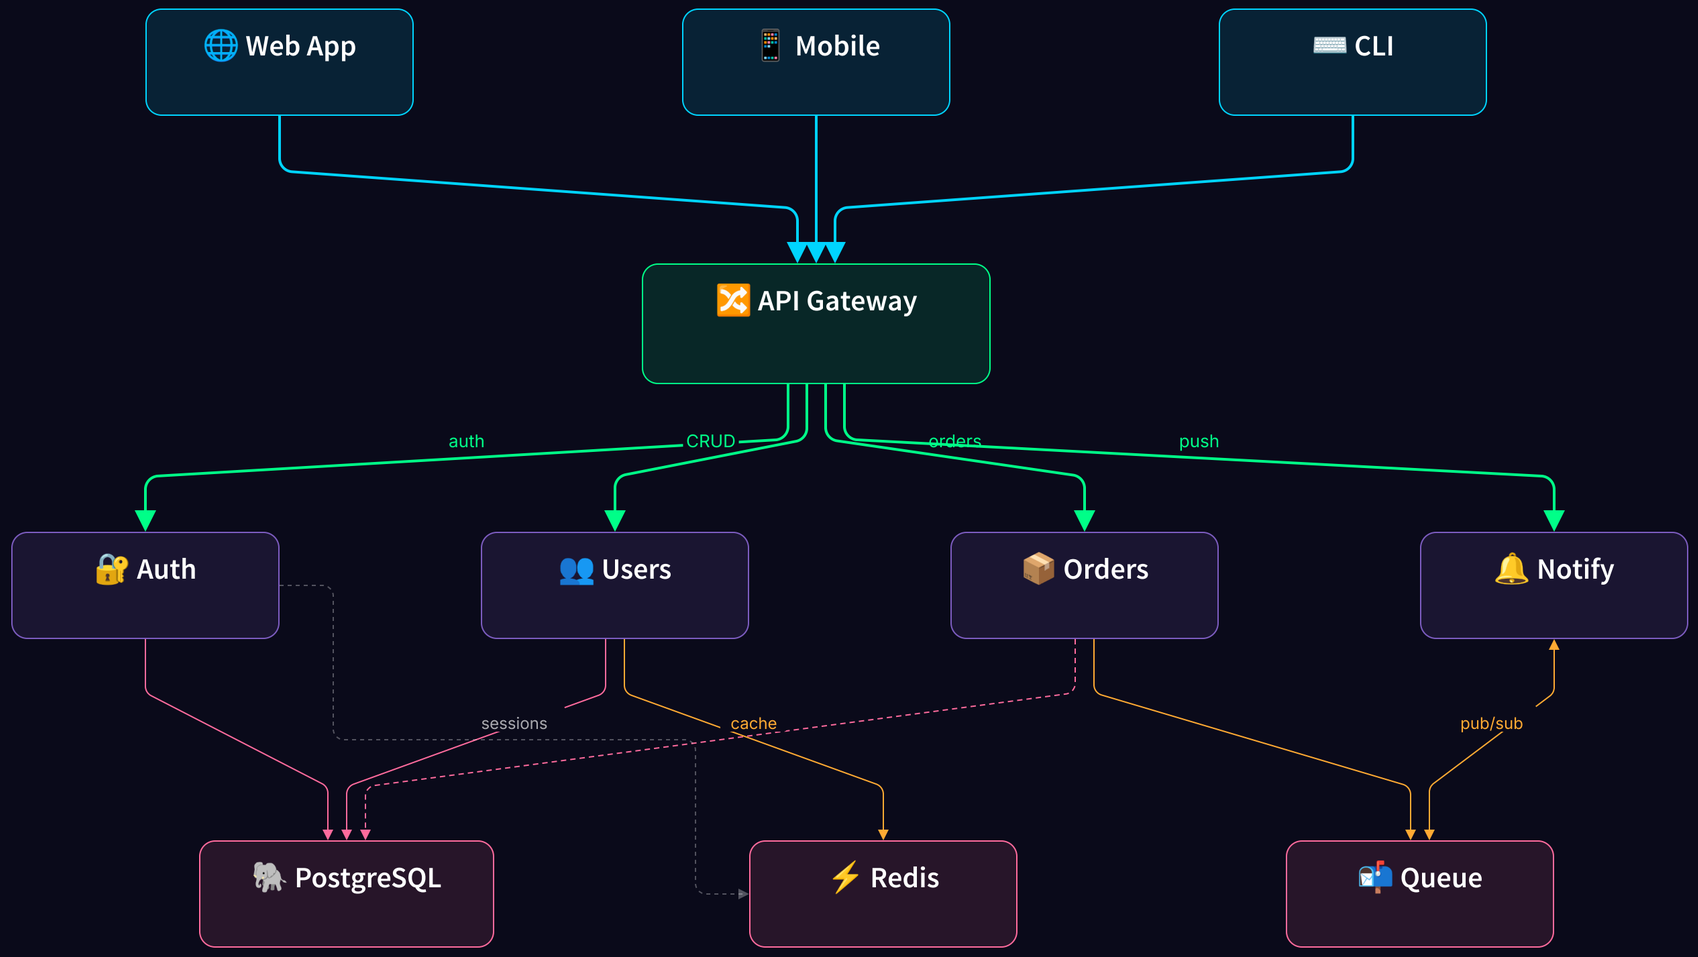


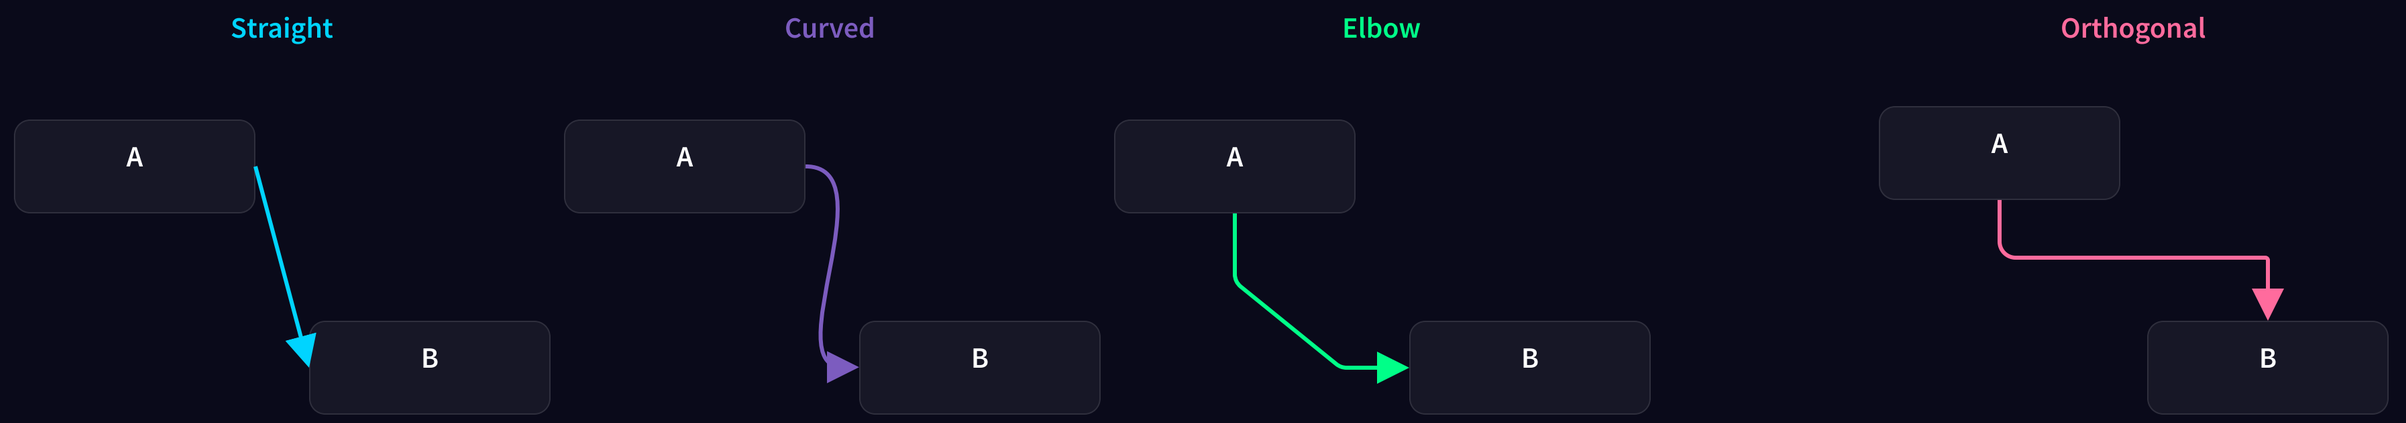
Labels on All Connector Types

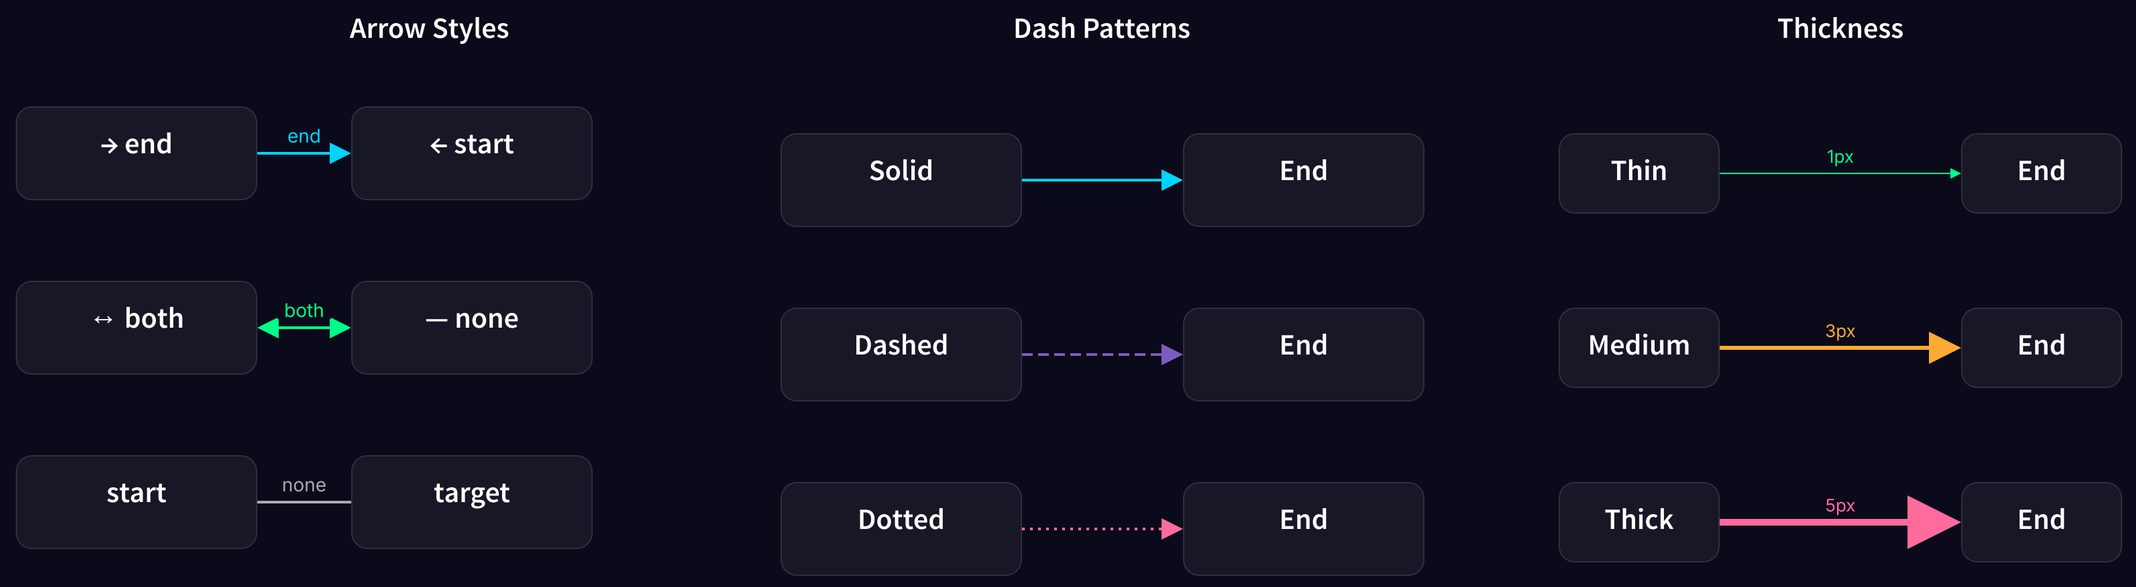


Architecture Diagram

A realistic diagram using all connector improvements together



Connector Types & Styles




Straight, curved, elbow, and orthogonal connectors with various styling options
